

CLAO 23 is a mixture of natural solvents designed to provide optimum oil solubility.

Typical Characteristics

Parameter	Specification
Appearance	Clear liquid
Specific gravity @ 20°C (g/cm ³)	0.80 – 0.85
Water solubility @ 25°C	Insoluble
Flash point (°C)	> 62

Application

CLAO 23 dissolves crude oil colloids, asphaltene and other insoluble substances. This allows it to effectively clean surface-precipitated oil as well as bottom-hole residues deposited by oil-based and synthetic-based muds.

Packaging and Storage

CLAO 23 is packaged in 160KG drum.

Store in dry, well-ventilated area. Keep container closed. Keep away from heat, sparks and flames. Store away from incompatibles. Follow safe warehousing practices regarding palletizing, banding, shrink-wrapping and/or stacking.

Recommended Handling

All personnel handling this material must handle it as an industrial chemical, wearing protective equipment and observing the precautions as described in the Safety Data Sheet (SDS).

This document is supplied solely for informational purposes and Solent Chemicals makes no guarantees or warranties, either expressed or implied, with respect to the accuracy and use of this data. All product warranties and guarantees shall be governed by the Standard Terms of Sale.
