

SOL DS18 is a water-dispersible defoamer. It is based on a modified organic silicon chemistry and is widely used in chemical, oilfield and other industries.

Typical Characteristics

Parameter	Specification
Appearance	Milky white liquid
Specific gravity	0.95 – 1.05
Water solubility @ 25°C	Dispersible in water
pH @ 5% solution	6 – 8

Application

SOL DS18 is a very effective defoaming agent, which can be widely used in industrial production and oil field operations. It has good compatibility, prevents/ inhibits the occurrence of drilling foam and stabilizes the mud system.

Packaging and Storage

SOL DS18 is packaged in 25L drum and 200L drum.

Store in dry, well-ventilated area. Keep container closed. Keep away from heat, sparks and flames. Store away from incompatibles. Follow safe warehousing practices regarding palletizing, banding, shrink-wrapping and/or stacking.

Recommended Handling

All personnel handling this material must handle it as an industrial chemical, wearing protective equipment and observing the precautions as described in the Safety Data Sheet (SDS).
